Members of the Nebraska State Legislature,

I sign this letter in support of the passage of LB393, the bill proposed to reinstate the ability to choose to or not to wear a helmet while operating a motorcycle for adults in our great state.

First and foremost I sign in support of an adult's ability to choose. Secondary to that belief, I find the current restriction to be a competitive disadvantage for our local economy. Five of the six contiguous states allow adults to decide for themselves deterring travelers away from our region as well as profiting from our citizens that prefer a choice while riding.

I ask you to support and pass LB393 and allow the business owners of the state of Nebraska to have the same advantages as our neighboring states.

Respectfully;
